

Parascript® BPO Accelerator Program

Parascript for Business Process Outsourcers and Service Providers

Parascript reduces BPO document processing costs and improves operating margins. We provide the world's leading Intelligent Document Processing software as part of our unique end-to-end partnership to help you grow your profitability and stay competitive.

THE ACCELERATOR PROGRAM

The Parascript Accelerator Program for BPOs and service providers means process automation at little to no upfront cost and no risk to you. We get paid based on achieving unattended automation milestones.

Our value is proven prior to payment and software performance can be guaranteed throughout our partnership.

LEVERAGE YOUR TECHNOLOGY

Parascript focuses on performance improvement. We can work with your technologies and workflows, leveraging our significant experience using patented technologies to increase performance of your existing software.

CONFIGURATION & TUNING

Services for Implementation, configuration and accuracy tuning down to the field level using statistical sampling are part of the engagement. No staff or budget allocations are necessary.

Parascript Smart Learning monitors and maintains the performance of the implementation to ensure no degradation of performance over time.

Parascript for Business Process Outsourcers and Service Providers

The Parascript Accelerator Program for select BPOs is centered around a shared alignment process that provides you with guaranteed cost reductions, which fund the entire program. Simply put, Parascript only gets paid after you realize real cost reductions.

IMMEDIATE RETURN ON INVESTMENT

Most document automation adoption takes 6-18 months for ROI with the software performance often degrading over time. However, our service provider partners experience **immediate and sustainable cost savings** through a combination of our data analytics services and Smart Learning.

Parascript eliminates the burden of document analysis, rules design and accuracy verification, ensuring that the end result is optimized high-quality data extraction for you.

UNPARALLELED EXPERTISE

In addition to the unique win-win approach of the program, Parascript is uniquely equipped with the experience and skills necessary to improve your operating margins.

From large-scale projects where Parascript has reduced annual costs by over a billion dollars to supporting some of the largest financial institutions in the world with check processing saving tens of millions of dollars annually, Parascript brings its in-depth technical knowledge combined with process experience to meet the most complex document processing challenges.

PROJECT START

Upon project start, the Parascript team takes on the supporting role of project management, analysis, and development of the proof of concept and evaluation report so that you continue operations as usual.

The result is a coordinated, compact and precise project. Upon completion, the service provider reviews the results and can implement optimized or new technologies with the full support of the Parascript team.
