PARASCRIPT®

Parascript Education Services

Parascript software provides the highest level of straight through processing at the highest accuracy in the shortest time-to-live. In order to get everything you can out of your Parascript software investment, we offer comprehensive education services that are optimized to ensure the maximum level of understanding.

Parascript offers three levels of education:

1 Scheduled Classroom Sessions

2 Custom Onsite Training

3 Computer-based Training

Scheduled Classroom

Parascript offers training in a classroom setting at its offices in Longmont, Colorado. As part of classroom training, the student is supplied with a fully-configured version of FormXtra.AI software, digital handouts and lab workbooks. The only thing the student needs to bring is a laptop computer.

Parascript FormXtra.AI
Basic Training (three-day)
$2,000 USD per student
